## Eleven performance – Road and track experience day

### The Experience

Imagine having the open, fast flowing roads of Scotland as your personal playground exploring the very best they have to offer whilst driving one of our very special performance vehicles.

The Eleven performance road and track experience day brings together the chance to drive some of the worlds finest road cars and then be driven around a race track with a leading racing driver.

Fly to any of the main airports in Scotland - all of which are only an hour's flight from London and no more than two hours from most of mainland Europe - and collect the performance car of your choice to begin your exclusive supercar adventure.

Each package is expertly tailored to your needs with as much or as little driving as you want. We have a number of predetermined routes to ensure you experience the best driving roads and most spectacular vistas in Scotland, or you can simply discover the area for yourself - the choice is yours.

In the evening select from a range of luxury hotels, relax in magnificent surroundings and enjoy the finest cuisine that Scotland has to offer, prepared by some of the world's very best chefs. Before you retire for the evening savour the finest malt whiskies while you admire the truly breathtaking scenery.

Our aim is to cater to your every need to make your experience truly memorable ensuring that you will want to return time and time again.

### The Cars

Eleven have an exclusive range of high performance prestige vehicles chosen from the world's premium automotive manufacturers.

Whichever car you choose it will deliver handling that make you feel connected to every twist, turn and undulation of Scotland's outstanding roads. Power that encourages spirited driving and a spine-tingling soundtrack from the finest high-performance engines will leave you in no doubt that you are experiencing something very special.

Eleven's stable of vehicles encompasses all types of performance machinery whether you hanker after the purity of design, open cockpit and astonishing power to weight ratio of a Caterham Seven, with its lightning quick responses and instantaneous power delivery or the rally developed Ford Focus RS with 385PS on tap and four wheel drive to ensure that you can exploit all its performance.

If you aspire to something more exotic then choose from our range of Italian thoroughbreds. Whether it's the prancing horse of a Ferrari or the raging bull of a Lamborghini, Eleven can offer you the opportunity to drive either in the form of the Ferrari F430 which boasts 490PS from its 4.3 litre V8 or the Lamborghini Gallardo LP560-4 with a staggering 560PS from its legendary 5.2 litre V10.

If you prefer your performance a little more understated the Aston Martin DB9 fits the bill perfectly with its elegant lines, quintessentially British interior and creamy smooth six litre V12. This is genuinely a GT with style.

However if you yearn for the archetypal German supercar then look no further than our Porsche 911 Turbo, a car which spans generations but has been continually developed to keep it on the cutting edge of technology. There is no better place to exploit its astounding power delivery than on the ribbons of tarmac that pierce through the Scottish countryside.

All our vehicles are available throughout the year, are maintained to the highest manufactures' standards and presented in showroom condition

### How does the day work?

Each day will comprise of three hours of relaxed motoring followed by a lunch stop. After lunch we will take you for a number of quick laps around Ingliston race circuit near Edinburgh, driven by a leading British racing driver. Our drivers are regular competitors in the World Rally Championship, British Touring Car Championship and British GT championship.

The roads throughout the chosen route will be amongst the finest in the central belt of Scotland, feature good surfaces, enjoyable driving and stunning borders scenery. Each vehicle will have the full route pre-programmed into its satellite navigation system. Regular stops and coffee breaks will be taken along the route. Lunch can be arranged to cater for every taste from traditional Scottish cuisine through to light snacks.

After lunch the experience will comprise of quick laps around the Ingliston race circuit, home to the Historic Ecurie Ecosse race team, past winners of Lemans. This will be in a Caterham 7, Ariel Atom and a Ford Focus with excess of 400bhp.
